Payment Processing with
expertise in Gambling

Skills

- Python
- Golang
- Django
- FastAPI
- Tornado
- Falcon
- MongoDB
- PostgreSQL
- Redis
- RabbitMQ

About me

Hi, I'm Maksym, a backend engineer with 12 years of experience in software development. Along with about ten years of experience with Python, Golang, and microservice architecture, I also have team-management and leadership skills gained through the coordination of plenty of teams. Currently, I'm looking for a carrier opportunity in Germany or Luxembourg.

Experience

Aug. 2023–now	Senior Software Developer	Softwareentwicklung und IT Services – Trier Hybrid
Skilled entrepreneur with expertise in Software Infrastructure, Design, and Engineering. Experienced in providing effective consulting services. Proficient in utilizing technologies such as MongoDB, Go, Python, PostgreSQL, and RabbitMQ to develop robust solutions. Adept at navigating the complexities of software development to deliver innovative and efficient outcomes. Skills: <i>Asyncio, Tornado, FastAPI, Falcon, RabbitMQ, MongoDB, PostgreSQL, Redis, Python, Golang</i>		
Nov. 2018–Jul. 2023	Senior Software Developer	TECHNO-POINT LLC – Kyiv, Ukraine Hybrid
I have been involved in creating gambling software. My work includes developing various aspects like online casinos, virtual games, and lotteries. I focus on making the software robust and ensuring it follows industry rules. I bring experience in using the latest technologies to improve user experiences and keep the software up-to-date with the changing gambling industry. Skills: <i>Django, Asyncio, Tornado, FastAPI, RabbitMQ, MongoDB, PostgreSQL, Python, Golang</i>		
Jun. 2018–Oct. 2018	Senior Software Developer	Lucky Labs – Kyiv, Ukraine On-site
Participation in the development of gambling software. Skills: <i>Django, Asyncio, Tornado, FastAPI, RabbitMQ, MongoDB, PostgreSQL, Python, Golang</i>		
Apr. 2017–Jul. 2018	Software Developer	Sportsbookcloud Ltd – Cologne, Germany Remote
Developing and maintaining the SAAS sports betting platform. Skills: <i>Django, Asyncio, Tornado, RabbitMQ, MongoDB, PostgreSQL, Python</i>		
Aug. 2016–Apr. 2017	Software Developer	Contractor – Moscow, Russia Remote
Participation in the development of the paper archive management system supported by the government. Skills: <i>Django, Asyncio, RabbitMQ, RabbitMQ, SeaweedFS, PostgreSQL, Python, Golang</i>		
Nov. 2015–Aug. 2016	Python Developer	Summus Lab – Kyiv, Ukraine On-site
Design of an event-oriented, microservice-based engine for betting game development. Company-wide implementation of state-of-the-art approaches to designing, code reviews, CI, and automation testing. Team management, task setting. Skills: <i>Tornado, Django, Async, RabbitMQ, PostgreSQL, Python</i>		
Jul. 2014–Oct. 2015	Python Developer	SpoonTch – Kyiv, Ukraine Remote
Participation in the development of a large online store and CRM system on Python/Django. Skills: <i>Twisted, Django, PostgreSQL, Python</i>		
Oct. 2010–Jun. 2014	Python Developer	Contractor – Chicago, IL, US Remote
Plone/Zope/Twisted development and maintenance for many NDA projects. Skills: <i>Twisted, Pyramid, Plone, Zope, Python</i>
